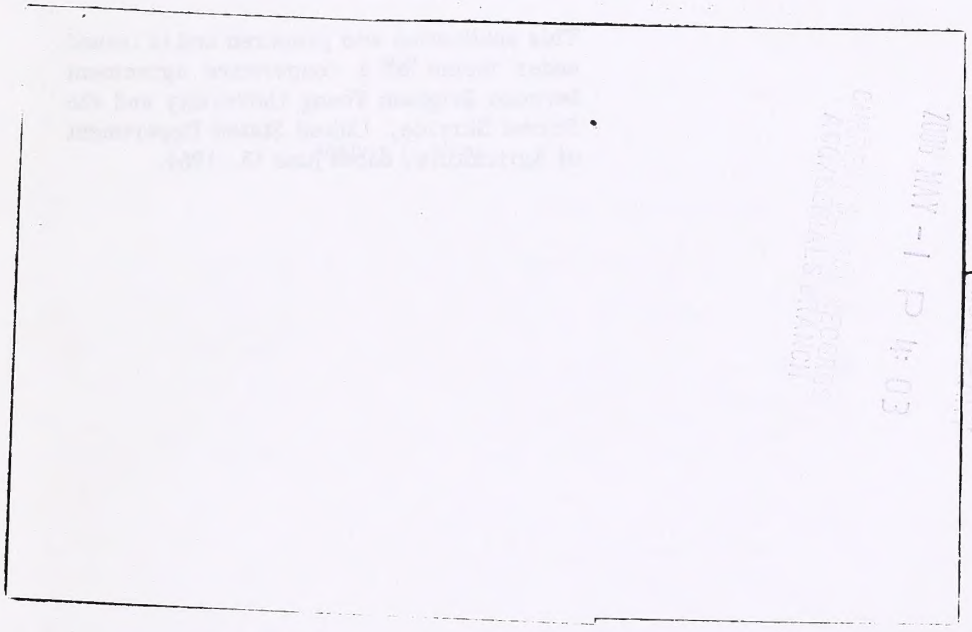
U. S. Forest Service Research Paper INT-19 1965

A99.9 F764U

A Bibliography of Engelmann Spruce

Earl M. Christensen and Melvin J. Hunt



INTERMOUNTAIN FOREST AND RANGE EXPERIMENT STATION
Forest Service
U. S. Department of Agriculture
Ogden, Utah

This publication was prepared and is issued under terms of a cooperative agreement between Brigham Young University and the Forest Service, United States Department of Agriculture, dated June 13, 1964.

U.S. Forest Service
Research Paper INT-19
1965

A BIBLIOGRAPHY OF ENGELMANN SPRUCE

by

Earl M. Christensen
Chairman, Department of Botany
Brigham Young University

and

Melvin J. Hunt

INTERMOUNTAIN FOREST AND RANGE EXPERIMENT STATION
Forest Service
U.S. Department of Agriculture
Ogden, Utah
Joseph F. Pechanec, Director

THE AUTHORS

DR. EARL M. CHRISTENSEN is Professor and Chairman of the Department of Botany at the Brigham Young University, where he has taught since 1949. He has published two bibliographies of Utah aquatic biology and several articles on plant ecology and range management.

MELVIN L. HUNT is a graduate student at the Brigham Young University studying for a master's degree in botany and range management.

A BIBLIOGRAPHY of ENGELMANN SPRUCE

This bibliography of Engelmann spruce (Picea engelmannii Parry), while generally comprehensive, emphasizes publications on the ecology of the species. It supplements the excellent bibliography by Ronco (1961) on Engelmann spruce and subalpine fir, which emphasized publications about management of these species. The present publication includes references to items published through calendar year 1963 and provides brief annotations describing the nature of information about Engelmann spruce contained in the referenced item. Publications whose titles are descriptive or self-explanatory are not annotated. This bibliography includes references to printed publications and to theses, but it does not refer to typewritten reports.

ANONYMOUS. 1935. Engelmann spruce: Picea engelmannii Engelmann. Amer. Forests 41: 598-599. (Trees and their uses No. 9 - Engelmann spruce, p. 597.)

Description of species, distribution, and economic value.

ANONYMOUS. 1944-45. Beetle plague. Timberman 46(5): 36-37, 78.

Colorado and Wyoming Engelmann spruce infestations of Dendroctonus engelmanni.

ABRAMS, LEROY. 1940. Illustrated flora of the Pacific States Washington, Oregon, and California. Vol. I. 536 pp., illus. Stanford Univ., Calif.: Stanford Univ. Press.

Description and generalized distribution.

AGERTER, SHARLENE R. (See Glock, Studhalter, and Agerter. 1960)

ALEXANDER, ROBERT R. 1956. A comparison of growth and mortality following cutting in old-growth mountain spruce-fir stands. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Res. Note 20, 4 pp.

Describes three methods of harvest, but does not give growth and mortality data for individual species.

ALEXANDER, ROBERT R. 1957. Preliminary guide to stand improvement in cutover stands of spruce-fir. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Res. Note 26, 6 pp.

A guide for improving stands containing Engelmann spruce, subalpine fir, and lodgepole pine.

ALEXANDER, ROBERT R. 1957. Damage to advanced reproduction in clearcutting spruce-fir. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Res. Note 27, 3 pp.

ALEXANDER, ROBERT R. 1958. Silvical characteristics of Engelmann spruce. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Paper 31, 20 pp.

A review of literature of the silvics of Engelmann spruce; based on 40 published sources.

ALEXANDER, ROBERT R. 1963. Harvest cutting old-growth mountain spruce-fir in Colorado. Jour. Forestry 61: 115-119.

ALEXANDER, ROBERT R., and JESSE H. BUELL. 1955. Determining the direction of destructive winds in a Rocky Mountain timber stand. Jour. Forestry 53: 19-23.

Describes damage in Engelmann spruce and lodgepole pine forests.

ALLEN, GEORGE S. 1957. Storage behavior of conifer seeds in sealed containers held at 0° F., 32° F., and room temperature. Jour. Forestry 55: 278-281.

Germination after storage from 5 to 7 years.

ALLEN, GEORGE S., and WILLEM BIENTJES. 1954. Studies on coniferous tree seed at the University of British Columbia. Forestry Chron. 30: 183-196.

ALLER, ALVIN R. 1960. The composition of the Lake McDonald Forest, Glacier National Park. Ecology 41: 29-33.

Includes quantitative phytosociology data and climatic data.

ALLISON, F. E., and C. J. KLEIN. 1961. Comparative rates of decomposition in soil of wood and bark particles of several softwood species. Soil Sci. Soc. Amer. Proc. 25: 193-196.

ALLISON, GEORGE W. 1955. An application of an aerial photo volume table to forest inventory work in British Columbia. Forestry Chron. 31: 366-368.

AMMAN, GENE D., and PAUL H. BALDWIN. 1960. A comparison for censusing woodpeckers in spruce-fir forests of Colorado. Ecology 41: 699-706.

Discusses distribution of insects and control of insects by woodpeckers.

ANDERSON, I. V. 1954. Suitability of Rocky Mountain woods for veneer and plywood. Jour. Forestry 52: 587-591.

Engelmann spruce is one of five major species discussed.

ANDERSON, I. V. 1956. Engelmann spruce, its properties, uses, and production. U.S. Forest Serv., Intermountain Forest and Range Expt. Sta. Res. Paper 39, 16 pp.

Compares quality of Engelmann spruce lumber with that of other lumber species. Discusses estimated yield and production.

ANDERSON, I. V. 1956. Properties, uses and production of Engelmann spruce. Forest Prod. Jour. 6: 307-311.

ANNAND, P. N. 1928. A contribution toward a monograph of the Adelginae (Phylloxeridae) of North America. Stanford Univ. Pub. Biol. Sci. 6: 1-146.

Plant lice on Engelmann spruce: Pineus boycei n. sp. in Montana; Pineus engelmanni n. sp. in Oregon.

ARLIDGE, J. W. C. 1958. A preliminary classification and evaluation of Engelmann spruce-alpine fir forest at Bolean Lake, B. C. Forestry Chron. 34: 324-325.

ARTHUR, JOSEPH CHARLES, and FRANK DUNN KERN. 1906. North American species of Peridermium. Torrey Bot. Club Bul. 33: 403-438.

Several species of Peridermium on Engelmann spruce.

ASHTON, RUTH E. 1929. Preliminary observations on revegetation of the Twinsisters burn in Rocky Mountain National Park. Jour. Colo.-Wyo. Acad. Sci. 1(2): 13. (Abstract.)

Notes the invasion of a lodgepole pine forest by Engelmann spruce.

AYRES, H. B. 1899. Washington Forest Reserve (western part). U.S. Geol. Surv. Ann. Rpt. 19, 1897-98, Part V-Forest reserves: 283-313.

Engelmann spruce is small and not abundant; found at high altitudes.

AYRES, H. B. 1900. The Flathead Forest Reserve. U.S. Geol. Surv. Ann. Rpt. 20, 1898-99, Part V-Forest reserves: 245-316.

AYRES, H. B. 1900. Lewis and Clark Forest Reserve, Montana. U.S. Geol. Surv. Ann. Rpt. 21, Part V-Forest reserves: 27-80.

Community; Engelmann spruce is abundant.

BAILEY, L. H. (Ed.) 1925. The cultivated evergreens. New edition. 434 pp. New York: Macmillan.

Distribution of Engelmann spruce in cultivation.

BAILEY, L. H. 1933. The cultivated conifers of North America. 404 pp. New York: Macmillan.

BAKER, FRANCIS E. (See Fleming, Baker, and Koblitzky. 1937)

BAKER, FREDERICK S. (See Korstian and Baker. 1925)

BAKER, FREDERICK S. 1949. A revised tolerance table. Jour. Forestry 47: 179-181.

Lists Engelmann spruce as a "tolerant" species on a five-part scale from "very tolerant" to "very intolerant."

BAKER, FREDERICK S., C. F. KORSTIAN, and N. J. FETHEROLF. 1921. Snowshoe rabbits and conifers in the Wasatch Mountains of Utah. Ecology 2: 304-310.

Engelmann spruce is subject to damage during winter by rabbits.

BALDWIN, PAUL H. 1960. Overwintering of woodpeckers in bark beetle-infested spruce-fir forests of Colorado. IN: Proc. XII Internatl. Ornith. Cong., Helsinki, 1958, pp. 71-84.

Engelmann spruce beetles and birds.

BALDWIN, PAUL H. (See Amman and Baldwin. 1960)

BARGER, ROLAND L. (See Mueller and Barger. 1963)

BARNES, G. H. 1937. The development of uneven-aged stands of Engelmann spruce and probable development of residual stands after logging. Forestry Chron. 13: 417-457.

BARR, PERCY MUNSON. 1930. The effect of soil moisture on the establishment of spruce reproduction in British Columbia. Yale Univ. School of Forestry Bul. 26, 77 pp.

BARROWS, J. S. 1951. Forest fires in the northern Rocky Mountains. U.S. Forest Serv., North. Rocky Mountain Forest and Range Expt. Sta. Paper 28, 251 pp.

BARROWS, J. S. 1951. Fire behavior in northern Rocky Mountain forests. U.S. Forest Serv., North. Rocky Mountain Forest and Range Expt. Sta. Paper 29, 103 pp.

Table A-5 analyzes rate of spread of fires in subalpine fir and Engelmann spruce forests.

BARTON, G. M., and J. A. F. GARDNER. 1957. A comparison of the heartwood extractives of Picea glauca and Picea engelmanni. Forestry Chron. 33: 136-138.

BATES, CARLOS G. 1911. Forests and stream-flow. Soc. Amer. Foresters Proc. 6(1): 53-63.

Distribution of Engelmann spruce.

BATES, CARLOS G. 1912. Silvicultural systems of management for central Rocky Mountain Forests. Soc. Amer. Foresters Proc. 7: 106-116.

Discusses management of forests containing Engelmann spruce.

BATES, CARLOS G. 1917. Forest succession in the central Rocky Mountains. Jour. Forestry 15: 587-592.

Discusses place of Engelmann spruce in succession in Rocky Mountain forests.

BATES, CARLOS G. 1917. The role of light in natural and artificial reforestation. Jour. Forestry 15: 233-239.

Compares minimum requirements of light for sustained growth of yellow pine, lodgepole pine, Douglas-fir, and Engelmann spruce.

BATES, CARLOS G. 1923. Physiological requirements of Rocky Mountain trees. Jour. Agr. Res. 24: 97-164.

Physiology of Engelmann spruce and associated species.

BATES, CARLOS G. 1923. The transect of a mountain valley. Ecology 4: 54-62.

Discusses succession in Colorado and analyzes topographic distribution of Engelmann spruce; includes data on evaporation, soil temperature, and soil moisture.

BATES, CARLOS G. 1924. Forest types in the central Rocky Mountains as affected by climate and soil. U.S. Dept. Agr. Dept. Bul. 1233, 152 pp.

Discusses community, succession, and distribution.

BATES, CARLOS G. 1925. A key to the identification of some coniferous seedlings. Jour. Forestry 23: 278-281.

Seedling morphology.

BATES, CARLOS G. 1925. The relative light requirements of some coniferous seedlings. Jour. Forestry 23: 869-879.

Discusses requirements of eight coniferous species including Engelmann spruce; gives seed weights of several species.

BATES, CARLOS G. 1926. What shall we do with Engelmann spruce? Colorado Forester 1926: 21-25.

BATES, CARLOS G., N. B. NOTESTEIN, and PETER KEPLINGER. 1914. Climatic characteristics of forest types in the central Rocky Mountains. Soc. Amer. Foresters Proc. 9: 78-94.

Colorado.

BATES, CARLOS G., and JACOB ROESER, JR. 1924. Relative resistance of tree seedlings to excessive heat. U.S. Dept. Agr. Dept. Bul. 1263, 16 pp.

Compares Engelmann spruce seedlings with those of other conifers for heat resistance without the drought factor.

BATES, CARLOS G., and JACOB ROESER, JR. 1928. Light intensities required for growth of coniferous seedlings. Amer. Jour. Bot. 15: 185-194.

Physiology of Engelmann spruce.

HOPKINS, A. D. 1909. Practical information on the Scolytid beetles of North American forests. I. Bark beetles of the genus Dendroctonus. U.S. Bur. Ent. Bul. 83, 169 pp.

HOPPING, GEORGE R. 1946. Control of the more injurious bark beetles of the Canadian Rocky Mountain region. Canada Dept. Agr., Sci. Serv., Div. Ent. Pub. 49, 7 pp.

HOPPING, GEORGE R. 1950. Timber types in relation to insect outbreaks in the Canadian Rocky Mountains. Ontario Ent. Soc. 81st Ann. Rpt., 72-75. (Canada Dept. Agr., Div. Ent., Sci. Serv., Contrib. 2768.)

HORNIBROOK, E. M. 1942. Yield of cutover stands of Engelmann spruce. Jour. Forestry 40: 778-781.

Presents equation for estimating future yield.

HORNIBROOK, E. M. 1948. Merchantable height volume table for Engelmann spruce. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Res. Note 3, 2 pp.

HORNIBROOK, E. M. 1950. Estimating defect in mature and overmature stands of three Rocky Mountain conifers. Jour. Forestry 48: 408-417.

Describes defects, particularly those due to fungi (rots). Discusses methods useful in estimating defects.

HORNIBROOK, E. M. (See Taylor and Hornibrook. 1937)

HORTON, K. W. 1956. The ecology of lodgepole pine in Alberta and its role in forest succession. Canada Dept. North. Affairs and Natl. Resources, Forestry Branch, Forest Res. Div. Tech. Note 45, 29 pp.

HORTON, K. W. 1959. Characteristics of subalpine spruce in Alberta. Canada Dept. North. Affairs and Natl. Resources, Forestry Branch, Forest Res. Div. Tech. Note 76, 20 pp.

Discusses reproduction, community, description, and hybrids between white and Engelmann spruce.

HOTTES, F. C. 1961. A new species of Cinara from Colorado (Aphididae). Great Basin Nat. 21: 17-19.

Discusses Cinara caliginosa, n. sp. on Engelmann spruce.

HOTTES, F. C. 1961. A review and key of North American Cinara (Homoptera: Aphididae) occurring on Picea. Great Basin Nat. 21: 35-50.

HUBERT, ERNEST E. (See Weir and Hubert. 1918)

HUGHES, JAY M. 1962. Pulp- and papermaking opportunities in west central Colorado. U.S. Forest Serv. Rocky Mountain Forest and Range Expt. Sta. Paper 73, 48 pp.

Engelmann spruce statistics.

HUTCHISON, FRANK T. 1952. The effects of woodpeckers on the Engelmann spruce beetle Dendroctonus engelmanni Hopkins. Master's thesis. Colo. State Univ., Fort Collins.

IVES, RONALD L. 1942. Atypical subalpine environment. Ecology 23: 89-96.

Reports on "Alpine rain forests" in Colorado and on climate and community.

JACK, JOHN G. 1900. Pikes Peak, Plum Creek, and South Platte Reserves. U.S. Geol. Surv. Ann. Rpt. 20, 1898-99, Part V-Forest reserves: 39-115.

JACKSON, A. BRUCE. (See Dallimore and Jackson. 1948)

JACKSON, H. S. 1917. A species of Chrysomyxa new to North America. Phytopathology 7: 78.

This species causes a disease of the leaves of Engelmann spruce.

JACKSON, H. S. 1917. Two new forest tree rusts from the northwest. Phytopathology 7: 352-355.

Discusses Chrysomyxa weirii sp. nov. on Engelmann spruce.

JACKSON, H. S., and ELIZABETH RUTH DEARDEN. 1951. Studies of North American Telephoraceae. I. Some new western species of Peniophora. Mycologia 43: 54-61.

Discusses Peniophora munda on Engelmann spruce stump in Wyoming.

JACOBS, M. C. (See McDougall and Jacobs. 1927)

JAMES, CORLAND L. (See Roe and James. 1959)

JEMISON, G. M. (See LeBarron and Jemison. 1953)

JENSEN, A. W. 1906. The Manti Forest Reserve: Description of a typical reservation in Utah. Forests and Irrig. 12: 291-293.

Reports distribution of Engelmann spruce and history of use and establishment of the Manti Forest.

JEPSON, WILLIS LINN. 1909. Engelmann spruce near the California line. Muhlenbergia 5: 64.

Discusses distribution of Engelmann spruce.

JEPSON, WILLIS LINN. 1923. A conifer new to California. Madroño 1: 116.

Discusses distribution of Engelmann spruce.

JOHNSON, A. W. 1957. Ecology of subalpine forest communities in the Silver Lake Valley of the Front Range in Colorado. Dissert. Abs. 17: 2779.

Includes community and succession.

JOHNSON, FREDERIC D., and VERNON H. BURLISON. 1961. Native trees of Idaho. Univ. Idaho, Moscow, Idaho Agr. Ext. Serv. Bul. 289, 32 pp.

Description and map of distribution of Engelmann spruce in Idaho.

JOHNSON, F. D. (See Gilbertson, Leaphart, and Johnson. 1961)

JOHNSON, K. RICHARD. 1936. Ecology of a glacial lake in central Colorado. Univ. Colo. Studies 23(3): 235-243.

Includes community description and report on hydrarch succession.

JOHNSON, K. RICHARD. 1939. Plant ecology of northwestern Colorado lakes and surrounding areas. Ph.D. thesis. Colo. Univ., Boulder.

JONES, M. E. 1910. The origin and distribution of the flora of the Great Plateau. Contrib. to Western Botany 13: 46.

Discusses distribution of Engelmann spruce.

JØRGENSEN, M. B. 1955. Træer på Grønland. Horticultura, København 9(2): 25-30.

Plantations and nurseries in Greenland.

KARTCHNER, JAMES A. 1938. A study of forest tree insects of Utah. Master's thesis. Brigham Young Univ., Provo, Utah.

Report on insects and insect diseases of Engelmann spruce.

KAUFFMAN, C. H. 1921. The mycological flora of the higher Rockies of Colorado. Mich. Acad. Sci., Arts and Letters Papers: 1: 101-150.

KEEN, F. P. 1952. Bark beetles in forests. IN: U.S. Dept. Agr., Insects, Yearbook of Agriculture, 1952: 688-694.

Note on Engelmann spruce beetle in Colorado.

KEEN, F. P. 1952. Insect enemies of western forests (Revised). U.S. Dept. Agr. Misc. Pub. 273, 280 pp., illus.

KELLOGG, L. F. 1927. The natural occurrence of Engelmann spruce in California. Jour. Forestry 25: 73-78.

Discusses reproduction of Engelmann spruce; this species occurs in Shasta County in a narrow belt along a creek bottom.

KEMP, PAUL D. (See Cummings and Kemp. 1940)

KEMP, PAUL D., and M. B. DICKERMAN. 1950. Montana forest resource and industry statistics. U.S. Forest Serv., North. Rocky Mountain Forest and Range Expt. Sta. Paper 25, 48 pp.

Volume of live sawtimber and primary growing stock; area of commercial forest by stand-size classes.

KEPLINGER, PETER. (See Bates, Notestein, and Keplinger. 1914)

KERN, FRANK DUNN. (See Arthur and Kern. 1906)

KIERULF, T. 1958. Plantningene på Horta. Tidsskr. Skogbr. 66: 109-112.

Discusses plantations in Norway.

KIRKWOOD, J. E. 1918. The conifers of the northern Rockies. U.S. Dept. Int., Bur. Educ. Bul. 53, 61 pp.

KIRKWOOD, J. E. 1922. Forest distribution in northern Rocky Mountains. Mont. State Univ. Bul. 247, Studies Ser. 2, 180 pp. Missoula, Mont.

Discusses distribution of Engelmann spruce.

KIRKWOOD, J. E. 1930. Northern Rocky Mountain trees and shrubs. 340 pp. Stanford Univ., Calif.: Stanford Univ. Press.

KLEIN, C. J. (See Allison and Klein. 1961)

KNIGHT, F. B. 1957. The effects of woodpeckers on populations of the Engelmann spruce beetle. Jour. Colo.-Wyo. Acad. Sci. 4: 47-48.

KNIGHT, F. B. 1958. Effects of woodpeckers on populations of the Engelmann spruce beetle. Jour. Econ. Ent. 51: 603-607.

KNIGHT, F. B. 1960. Measurement of Engelmann spruce beetle populations. Ecology 41: 249-252.

Methods of measuring beetle populations.

KNIGHT, F. B. 1960. Sequential sampling of Engelmann spruce beetle infestation in standing trees. U.S. Forest Serv. Rocky Mountain Forest and Range Expt. Sta. Res. Note 47, 4 pp.

Reports on Dendroctonus engelmanni.

KNIGHT, F. B. 1961. Variations in the life history of the Engelmann spruce beetle. Ent. Soc. Amer. Ann. 54: 209-214.

Descriptions of the life cycle of the Engelmann spruce beetle.

KNIGHT, F. B., W. F. McCAMBRIDGE, and B. H. WILFORD. 1956. Estimating Engelmann spruce beetle infestations in the central Rocky Mountains. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Paper 25, 12 pp.

Outlines survey method.

KNIGHT, F. B. (See Nagel, McComb, and Knight. 1957)

KNIGHT, H. A. W. 1958. Gibberellic acid application to Engelmann spruce seedlings. Brit. Columbia Forest Serv., Forest Res. Rev. 1957-58: 34-35.

KNOWLTON, G. F. 1930. Notes on Utah Lachnea (Aphididae). Can. Ent. 62: 152-161.

Reports on Lachnus found on Engelmann spruce.

KOBLITZKY, LOUIS. (See Fleming, Baker, and Koblitzky. 1937)

KORSTIAN, CLARENCE F. 1921. Effect of a late spring frost upon vegetation in the Wasatch Mountains of Utah. Ecology 2:47-52.

Describes injury to Engelmann spruce seedings in nursery and also to native trees due to frost.

KORSTIAN, CLARENCE F. 1921. Relation of precipitation to height growth of forest tree saplings. Utah Acad. Sci. Trans. 2:260-267.

Discusses growth of leaves of Engelmann spruce.

KORSTIAN, CLARENCE F. 1923. Control of snow molding in coniferous nursery stock. Jour. Agr. Res. 24: 741-748.

Réports on diseases in nursery stock.

KORSTIAN, CLARENCE F. 1924. Density of cell sap in relation to environmental conditions in the Wasatch Mountains of Utah. Jour. Agr. Res. 28: 845-907.

Discusses osmotic pressure of cell sap under different conditions, climatic data, and available soil moisture data.

KORSTIAN, CLARENCE F. 1925. Some ecological effects of shading coniferous nursery stock. Ecology 6: 48-51.

Germination and survival of Engelmann spruce in a nursery related to shading.

KORSTIAN, CLARENCE F., and F. S. BAKER. 1925. Forest planting in the Intermountain region. U.S. Dept. Agr., Dept. Bul. 1264, 56 pp.

Reports on Engelmann spruce: seed yield and germination period; distribution; sites suitable for planting; and survival after 4 years in experimental plantings.

KORSTIAN, CLARENCE F. (See Baker, Korstian, and Fetherolf. 1921)

KORSTIAN, CLARENCE F., and N. J. FETHEROLF. 1921. Control of stem girdle of spruce transplants caused by excessive heat. Phytopathology 11: 485-490.

KORSTIAN, CLARENCE F. (See Supplement, p. 37: Toumey and Korstian. 1954)

LANDGRAF, A. E. 1959. Forest insect conditions in the central Rocky Mountains, 1958. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Paper 40, 19 pp.

LANDGRAF, A. E., and H. E. OSTMARK. 1958. Forest insect conditions in the central Rocky Mountains, 1957. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Paper 34, 20 pp.

LANGENHEIM, JEAN H. 1955. Flora of the Crested Butte Quadrangle, Colorado. Madroño 13: 64-78.

LANGENHEIM, JEAN H. 1962. Vegetation and environmental patterns in the Crested Butte area, Gunnison County, Colorado. Ecol. Monog. 32: 249-285.

Community description.

LANGILLE, H. D., FRED G. PLUMMER, ARTHUR DODWELL, THEODORE F. RIXON, and JOHN LEIBERG. 1903. Forest conditions in the Cascade Range Forest Reserve, Oregon. U.S. Dept. Int., Geol. Surv. Prof. Paper 9, 298 pp.

Discusses distribution of Engelmann spruce, community composition based on volume, and size-age relationships of this species.

LARSEN, J. A. 1918. Comparison of seed testing in sand and in the Jacobsen germinator. Jour. Forestry 16: 690-695.

Reports on the germination of Engelmann spruce.

LARSEN, J. A. 1924. Some factors affecting reproduction after logging in northern Idaho. Jour. Agr. Res. 28: 1149-1157.

Lists factors affecting establishment of Engelmann spruce, hemlock, and white pine.

LARSEN, J. A. 1925. Natural reproduction after forest fires in northern Idaho. Jour. Agr. Res. 30: 1177-1197.

Quantitative data on community composition based on density; also quantitative data on reproduction.

LARSEN, J. A. 1927. Relation of leaf structure of conifers to light and moisture. Ecology 8: 371-377.

Describes anatomy of Engelmann spruce leaves.

LARSEN, J. A. 1929. Fires and forest succession in the Bitterroot Mountains of northern Idaho. Ecology 10: 67-76.

Distribution and autecological information on Engelmann spruce.

LARSEN, J. A. 1930. Forest types of the northern Rocky Mountains and their climatic controls. Ecology 11: 631-672.

Includes climatic data and community description.

LARSEN, J. A. 1940. Site factor variations and responses in temporary forest types in northern Idaho. Ecol. Monog. 10: 1-54.

Discusses topographic distribution of Engelmann spruce.

LEAPHART, C. D. (See Gilbertson, Leaphart, and Johnson. 1961)

LeBARRON, RUSSELL K., and G. M. JEMISON. 1953. Ecology and silviculture of Engelmann spruce-alpine fir type. Jour. Forestry 51: 349-355.

Includes community description and autecology of Engelmann spruce.

LEE, MERLIN RAYMOND. 1960. Montane mammals of southeastern Utah--with emphasis on the effects of past climates upon occurrence and differentiation. Ph.D. thesis. Univ. Utah, Salt Lake City.

Discusses distribution of Engelmann spruce.

LEHRLE, L. W. W. (See Clark, Lehrle, and Smith. 1954)

LEIBERG, JOHN B. 1899. Priest River Forest Reserve. U.S. Geol. Surv. Ann. Rpt. 19, 1897-98, Part V-Forest reserves: 217-252.

Distribution and community.

LEIBERG, JOHN B. 1899. Bitterroot Forest Reserve. U.S. Geol. Surv. Ann. Rpt. 19, 1897-98, Part V-Forest reserves: 253-282.

Community description.

LEIBERG, JOHN B. 1899. Present condition of the forested areas in northern Idaho outside the limits of the Priest River Forest Reserve and north of the Clearwater River. U.S. Geol. Surv. Ann. Rpt. 19, 1897-98, Part V-Forest reserves: 373-386.

Distribution of Engelmann spruce.

LEIBERG, JOHN B. 1900. Bitterroot Forest Reserves. U.S. Geol. Surv. Ann. Rpt. 20, 1898-99, Part V-Forest reserves: 317-410.

LEIBERG, JOHN B. 1900. Cascade Range Forest Reserve, Oregon ... together with the Ashland Forest Reserve and adjacent forest regions ... . U.S. Geol. Surv. Ann. Rpt. 21, Part V-Forest reserves: 209-498.

Community and distribution.

LEIBERG, JOHN B. 1900. Sandpoint Quadrangle, Idaho. U.S. Geol. Surv. Ann. Rpt. 21, Part V-Forest reserves: 583-595.

Community composition.

LEIBERG, JOHN B. 1904. Forest conditions in the Absaroka Division of the Yellowstone Forest Reserve, Montana, and the Livingston and Big Timber Quadrangles. U.S. Dept. Int., Geol. Surv. Prof. Paper 29, 148 pp.

Describes community composition, and reproduction and size-age relationship of Engelmann spruce.

LEIBERG, JOHN B. 1904. (See Supplement, p. 37)

LEIBERG, JOHN B. (See Langille et al. 1903)

LEIBERG, JOHN B., THEODORE F. RIXON, and ARTHUR DODWELL. 1904. Forest conditions in the San Francisco Mountains Forest Reserve, Arizona. U.S. Dept. Int., Geol. Surv. Prof. Paper 22, 95 pp.

Discusses community composition based on volume (B.M.), and distribution and size of Engelmann spruce.

LEMMON, J. G. 1895. Handbook of west American cone-bearers. 104 pp. 3d ed. Oakland.

Reports on Picea engelmanni var. Franciscana Lemmon.

LEMMON, J. G. 1897. Three west-American conifers. Gard. and Forest 10: 183.

Picea columbiana nom. nov. is taken up for Picea engelmanni Engelm.

LENTZ, P. L. (See McKay and Lentz. 1960)

LEOPOLD, E. B. 1953. Timberline growth rate and climatic correlations on Pike's Peak, Colorado. Ecol. Soc. Amer. Bul. 34: 90.

SMITH, J. HARRY G. 1950. Silviculture and management of Engelmann spruce in British Columbia, Picea engelmanni (Parry) Englm. Master's thesis. Yale Univ., New Haven, Conn.

SMITH, J. HARRY G. 1954. A cooperative study of Engelmann spruce-alpine fir. Silviculture and management. Northwest Sci. 28: 157-165.

SMITH, JOHN HARRY GILBERT. 1955. Some factors affecting reproduction of Engelmann spruce Picea engelmanni Parry and alpine fir Abies lasiocarpa (Hook.) Nutt. Ph.D. thesis. Yale Univ., New Haven, Conn.

Requirements for reproduction and factors altered by logging in British Columbia; includes a review of literature.

SMITH, J. HARRY G. 1956. Some factors affecting reproduction of Engelmann spruce and alpine fir. Brit. Columbia Dept. Lands and Forests, Forest Serv. Tech. Pub. T. 43, 43 pp.

SMITH, J. H. G. (See DeGrace, Robinson, and Smith, 1952; and Clark, Lehrle, and Smith, 1954)

SMITH, J. H. G., and M. B. CLARK. 1960. Growth and survival of Engelmann spruce and alpine fir on seed spots at Bolean Lake, B.C., 1954-59. Forestry Chron. 36: 46-49, 51.

SOCIETY OF AMERICAN FORESTERS. 1948. Forest practices for the inland empire. Jour. Forestry 46: 550-557.

Lists recommended cutting practices in spruce-fir type; gives community classification.

SOLHEIM, W. G. (See Rall and Solheim. 1961)

SOMERS, J. L. 1951. Some properties of the soil of spruce-fir forests in the Snowy Range, Wyoming. Master's thesis. Univ. Wyo., Laramie.

SPADA, B. 1960. Estimating past diameters of several species in the ponderosa pine subregion of Oregon and Washington. U.S. Forest Serv., Pacific Northwest Forest and Range Expt. Sta. Res. Note 181, 4 pp.

Discusses diameters based on relationship between bark thickness and d.o.b. at breast height.

SPAULDING, PERLEY. 1914. The damping-off of coniferous seedlings. Phytopathology 4: 73-87.

Pythium debaryanum caused damping-off in Engelmann spruce seedlings.

SPECTOR, WILLIAM S. (Ed.) 1956. Handbook of biological data. 584 pp. Philadelphia and London: W. B. Saunders Co. (Pages 137, 139, 141, 144, 147, 185, 336, 338, 452, 505.)

Provides valuable data on reproduction, phenology, morphology, physiology, and fungal parasites of Engelmann spruce.

SPENCER, JOHN W. 1915. Management of Engelmann spruce-alpine fir stands. Soc. Amer. Foresters Proc. 10: 192-198.

SPERRY, OMER E. 1936. A study of growth, transpiration and distribution of the conifers of the Rocky Mountain National Park. Torrey Bot. Club Bul. 63: 75-103.

SUDWORTH, GEORGE B. 1916. The spruce and balsam fir trees of the Rocky Mountain region. U.S. Dept. Agr. Bul. 327, 43 pp.

SVIHLA, RUTH DOWELL. 1932. The ecological distribution of the mammals on the north slope of the Uinta Mountains. Ecol. Monog. 2: 47-81.

Community description.

SWAINE, J. M. 1918. Canadian bark-beetles, Part II. A preliminary classification, with an account of the habits and means of control. Canada Dept. Agr., Ent. Branch (Tech.) Bul. 14, 143 pp.

TACKLE, D. 1955. A preliminary stand classification for lodgepole pine in the Intermountain region. Jour. Forestry 53: 566-569.

Succession.

TANNER, VASCO M. 1940. A biotic study of the Kaiparowits region of Utah. Great Basin Nat. 1: 97-126.

Community description.

TANNER, VASCO M., and C. LYNN HAYWARD. 1934. A biological study of the LaSal Mountains, Utah. Report No. 1 (Ecology). Utah Acad. Sci., Arts and Letters Proc. 11: 209-235.

Community description.

TAYLOR, RAYMOND F., and E. M. HORNIBROOK. 1937. The forest resources of Colorado. U.S. Forest Serv., Rocky Mountain Forest and Range Expt. Sta. Prelim. Rpt. March 15, 1937, 14 pp.

TAYLOR, T. M. C. 1959. The taxonomic relationship between Picea glauca (Moench) Voss and P. engelmannii Parry. Madroño 15: 111-115.

Discusses change of status of Engelmann spruce: Picea glauca (Moench) Voss subsp. engelmannii (Parry) stat. nov.

TAYLOR, WALTER P. 1935. Ecology and life history of the porcupine (Erethizon epixanthum) as related to the forests of Arizona and the southwestern United States. Univ. Ariz. Biol. Sci. Bul. 3, 177 pp.

Discusses damage to Engelmann spruce.

TERRELL, T. T. 1954. Mortality of the Engelmann spruce beetle brood during the winter of 1953-1954. U.S. Forest Serv., Intermountain Forest and Range Expt. Sta. Res. Note 10, 9 pp.

All-time low temperatures in January 1954 produced unusually high mortality of spruce beetle broods.

TERRY, WILLIAM Z. 1940. Native trees of Utah and the uses made of them by early settlers. Utah Acad. Sci., Arts and Letters Proc. 17: 115-117.

THOMPSON, M. W., and W. B. GREELEY. 1929. Timber growing and cutting practice in the lodgepole pine region. U.S. Dept. Agr. Dept. Bul. 1499, 33 pp.

Gives brief notes on the Engelmann spruce type (50% or more Engelmann spruce), including some notes on reproduction.

THOMSON, M. G. 1951. Engelmann spruce beetle. Canada Dept. Agr., Sci. Serv., Forest Biol. Div., Bimo. Prog. Rpt. 7(1): 4.

TIMELL, T. E. 1961. Isolation of galactoglucomannans from the wood of gymnosperms. Tappi 44: 88-96.

TIMELL, T. E. 1961. Isolation of polysaccharides from the bark of gymnosperms. Svensk Papp Tidn. 64: 651-661.

TIMELL, T. E. (See Mills and Timell. 1963)

TOUMEY, JAMES W. (See Supplement, p.37: Toumey and Korstian. 1954)

TOUMEY, JAMES W., and CLARK L. STEVENS. 1928. The testing of coniferous tree seeds at the School of Forestry, Yale University, 1906-1926. Yale Univ., School Forestry Bul. 21, 46 pp.

TOWN, F. E. 1899. Bighorn Forest Reserve. U.S. Geol. Surv. Ann. Rpt. 19, 1897-98, Part V-Forest reserves: 165-190.

Distribution of Engelmann spruce.

TRAPPE, JAMES M. 1961. Some probable mycorrhizal associations in the Pacific Northwest. III. Northwest Sci. 35: 91-94.

Amanita pantherina (D.C. ex Fries) Secr. associated with Engelmann spruce on the west slope of the Cascade Range in southern Washington; Russula delica Fries associated with Engelmann spruce in Oregon and Washington.

TRAPPE, JAMES M. (See Franklin and Trappe. 1963)

TROXELL, H. E. 1954. The use of Rocky Mountain species for pulping. Jour. Forestry 52: 583-586.

Discusses distribution of Engelmann spruce.

TWOMEY, ARTHUR C. 1942. The birds of the Uintah Basin, Utah. Carnegie Museum (Pittsburgh) Annals 28: 341-490.

Discusses distribution of Engelmann spruce and birds associated with this species.

U.S. AGRICULTURAL RESEARCH ADMINISTRATION. 1946. Report of the Chief of the Bureau of Entomology and Plant Quarantine, 63 pp.

Outbreak of Engelmann spruce beetle in Colorado.

U.S. DEPT. AGRICULTURE. 1960. Index of plant diseases in the United States. U.S. Dept. Agr., Agr. Res. Serv., Crops Res. Div., Agr. Handb. 165, 531 pp.

U.S. DEPT. AGRICULTURE. 1961. Seeds, The Yearbook of Agriculture, 1961: 556, 560.

Seed characteristics are reported.

U.S. FOREST SERVICE. No date. How to know the trees of the Intermountain region. 20 pp. U.S. Dept. Agr., Forest Service Region 4, Ogden, Utah.

Includes description and distribution of Engelmann spruce.

U.S. FOREST SERVICE. 1907. Engelmann spruce. Silvical Leaflet 3, 4 pp.

U.S. FOREST SERVICE. 1913. Mechanical properties of woods grown in the United States. U.S. Dept. Agr., Forest Serv. Cir. 213, 4 pp.

Covers tests made on small, clear, green specimens of 49 species including Engelmann spruce.

U.S. FOREST SERVICE. 1928. The National Forests of Colorado. U.S. Dept. Agr. Misc. Pub. 18, 38 pp.

U.S. FOREST SERVICE. 1930. Forest and range resources of Utah: their protection and use. U.S. Dept. Agr. Misc. Pub. 90, 101 pp.

Gives a general description of Engelmann spruce and discusses its distribution in Utah.

U.S. FOREST SERVICE. 1943. Silviculture of the spruce-fir type. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt. 1943: 37-43.

U.S. FOREST SERVICE. 1946. Studies in biology and control of Engelmann spruce bark beetle. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt.: 65-66.

U.S. FOREST SERVICE. 1948. Reproduction and stand-condition survey in beetle-killed Engelmann spruce stands. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt. 1948: 29-35.

U.S. FOREST SERVICE. 1948. Woody-plant seed manual. U.S. Dept. Agr. Misc. Pub. 654, 416 pp.

U.S. FOREST SERVICE. 1952. A guide for the selection of superior trees in the northern Rocky Mountains. U.S. Forest Serv., Forest Genetics Steering Committee, North. Rocky Mountain Forest and Range Expt. Sta. Misc. Pub. 6, 7 pp.

U.S. FOREST SERVICE. 1954. Seedbed preparation for natural regeneration of western larch. Intermountain Forest and Range Expt. Sta. Ann. Rpt.: 13-14.

Engelmann spruce is included.

U.S. FOREST SERVICE. 1956. Entomological phases of the 1955 Montana spruce budworm control project. Intermountain Forest and Range Expt. Sta. Misc. Pub. 9, 12 pp.

Reports all phases of control operations.

U.S. FOREST SERVICE. 1956. Pole blight of western white pine. Intermountain Forest and Range Expt. Sta. Ann. Rpt.: 23-25.

U.S. FOREST SERVICE. 1956. Shade is beneficial to Engelmann spruce initial seedling survival. Intermountain Forest and Range Expt. Sta. Ann. Rpt.: 6-7.

Reports results of special treatments studying effects of shade, watering, and weeding.

U.S. FOREST SERVICE. 1956. Spruce mealybug. Intermountain Forest and Range Expt. Sta. Ann. Rpt.: 35.

Infestation of Engelmann spruce by spruce mealybug (Puto sp.) in southern Utah.

U.S. FOREST SERVICE. 1957. Forest insect conditions in the intermountain and northern Rocky Mountain states. Intermountain Forest and Range Expt. Sta. Misc. Pub. 11, 6 pp.

Reports decline in 1956 of a major epidemic of Engelmann spruce beetle dating from 1952; also reports a serious outbreak in Wyoming.

U.S. FOREST SERVICE. 1957. Summary of Engelmann spruce seminar at Fraser Experimental Forest August 30-31, 1956. 17 pp. Rocky Mountain Forest and Range Expt. Sta.

U.S. FOREST SERVICE. 1957; 1958. Artificial regeneration tried in beetle-killed spruce stands. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt. 1957: 25-27; Ann. Rpt. 1958: 47-53.

U.S. FOREST SERVICE. 1959. Forest insect conditions in the intermountain and northern Rocky Mountain states during 1958. Intermountain Forest and Range Expt. Sta. Misc. Pub. 18, 12 pp.

U.S. FOREST SERVICE. 1959. Spruce mealybug. Intermountain Forest and Range Expt. Sta. Ann. Rpt.: 21-23.

Southern Utah.

U.S. FOREST SERVICE. 1960. Engelmann spruce beetle control by preventive measures. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt.: 8.

U.S. FOREST SERVICE. 1960. Engelmann spruce regeneration. Intermountain Forest and Range Expt. Sta. Ann. Rpt.: 5-6.

Reports results of studies of seedbed preparation.

U.S. FOREST SERVICE. 1960. Forest insect conditions in the intermountain and northern Rocky Mountain states during 1959. Intermountain Forest and Range Expt. Sta. Misc. Pub. 23, 12 pp.

U.S. FOREST SERVICE. 1960. New records for lodgepole pine dwarfmistletoe. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt.: 11.

Lodgepole pine dwarfmistletoe (Arceuthobium americanum) was found for the first time on Engelmann spruce.

U.S. FOREST SERVICE. 1961. Biological factors control local Engelmann spruce beetle outbreak. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt.: 16-17.

U.S. FOREST SERVICE. 1961. Woodpeckers aggregate in Engelmann spruce beetle outbreaks. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt.: 18-19.

U.S. FOREST SERVICE. 1962. Photosynthesis of spruce seedlings favored by partial shade. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt.: 26-27.

U.S. FOREST SERVICE. 1962. Windthrow losses increasing in beetle-killed Engelmann spruce. Rocky Mountain Forest and Range Expt. Sta. Ann. Rpt.: 48.

U.S. FOREST SERVICE and BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE. 1951. Engelmann spruce bark beetle control project Colorado 1951, 26 pp.

VAARTAJA, O. 1959. Evidence of photoperiodi ecotypes in trees. Ecol. Monog. 29: 91-111.

VALK, U. 1960. Eestisse introdutseeritud kuused. Eesti NSV Teaduste Akadeemia Toimetised, Tallinn (Bioloogiline Seeria), 1960(1): 60-65.

Lists spruces introduced into Estonia and gives English summary.

VAN DERSAL, WILLIAM R. 1938. Native woody plants of the United States, their erosion-control and wildlife values. U.S. Dept. Agr. Misc. Pub. 303, 362 pp.

VAUX, HENRY J. 1954. Some implications of the spruce beetle control and salvage pro-

grams in Colorado. Jour. Forestry 52: 506-510.

WAHLENBERG, W. G. 1924. Stimulating the growth of Engelmann spruce in the nursery. U.S. Forest Serv., North. Rocky Mountain Forest and Range Expt. Sta. Appl. Forestry Note 45, 3 pp.

WAHLENBERG, W. G. 1924. Reforestation by seed sowing in the northern Rocky Mountains. Jour. Agr. Res. 30: 637-641.

WAHLENBERG, W. G. 1929. Relation of quantity of seed sown and density of seedlings to the development and survival of forest planting stock. Jour. Agr. Res. 38: 219-227.

WAHLENBERG, W. G. 1930. Experiments in the use of fertilizers in growing forest planting material at the Savenac Nursery. U.S. Dept. Agr. Cir. 125, 37 pp.

Describes effect of heavy watering and fertilizers on the germination of Engelmann spruce seeds and the development of Engelmann spruce seedlings in nursery soils.

WAHLENBERG, W. G. 1930. Investigations in weed control by zinc sulphate and other chemicals at the Savenac Forest Nursery. U.S. Dept. Agr. Tech. Bul. 156, 35 pp.

Germination and survival of seedlings are reported following zinc sulphate treatment.

WAITE, ROBERT STARR. 1962. The geographical distribution and control of destructive bark beetles and defoliating insects in the coniferous forests of Utah. Master's thesis. Univ. Utah, Salt Lake City.

WALTERS, J. (See Thomson and Walters. 1951)

WATERMAN, W. G. 1925. Plant communities of Alpine Park. Bot. Gaz. 80: 188-202.

Includes community description and data on succession and topographic distribution.

WATSON, J. R. 1912. The plant geography of north central New Mexico. Bot. Gaz. 54: 194-217.

Discusses distribution of Engelmann spruce.

WEAVER, J. E., and F. E. CLEMENTS. 1938. IN: Plant Ecology, 2d ed., 601 pp. The subalpine forest, pp. 492-496. New York: McGraw Hill Book Co., Inc.

WEIDMANN, R. H. (See Supplement, p. 37: Haig, Davis, and Weidmann. 1941)

WEIR, JAMES R. 1915. A new leaf and twig disease of Picea engelmanni. Jour. Agr. Res. 4: 251-254.

Includes report on Herpotrichia quinqueseptata.

WEIR, JAMES R. 1915. New hosts for some forest tree fungi. Phytopathology 5: 71-72.

Herpotrichia nigra is abundant on Engelmann spruce in Idaho; Polyporus lucidus grows on roots of Engelmann spruce.

WEIR, JAMES R. 1917. Sparassis radicata, an undescribed fungus on the roots of conifers. Phytopathology 7: 166-177.

WEIR, JAMES R. 1918. New hosts for Razoumofskya laricis. Phytopathology 8: 62-63.

WEIR, JAMES R. 1918. Notes on the altitudinal range of forest fungi. Mycologia 10: 4-14.

Lists several fungi occurring on Engelmann spruce.

WEIR, JAMES R. 1921. Polyporus dryadeus (Pers.) Fr. on conifers in the Northwest. Phytopathology 11: 99.

Discusses heart rot on conifers.

WEIR, JAMES R., and ERNEST E. HUBERT. 1918. Forest disease surveys. U.S. Dept. Agr. Bul. 658, 23 pp.

Lists several diseases of Engelmann spruce.

WHITE, KEITH L. 1960. Differential range use by mule deer in the spruce-fir zone. Northwest Sci. 34: 118-126.

Western Montana.

WHITESIDE, J. M., and V. M. CAROLIN, JR. 1961. Spruce budworm in the western United States. U.S. Dept. Agr. Forest Pest Leaflet 53, 8 pp.

WHITFIELD, C. J. 1933. The vegetation of the Pike's Peak region. Ecol. Monog. 3: 75-105.

Community description.

WHITFORD, H. N., and ROLAND D. CRAIG. 1918. Forests of British Columbia. Canada Comm. Conserv., Com. on Forests, Ottawa, 409 pp.

General ecological information on Engelmann spruce.

WILFORD, B. H. (See Knight, McCambridge, and Wilford, 1956; and Ostmark and Wilford, 1956)

WILSON, A. K. 1958. Log production in Idaho and Montana, 1956. U.S. Forest Serv., Intermountain Forest and Range Expt. Sta. Res. Note 54, 7 pp.

Includes report on salvage of beetle-killed spruce in Montana and Idaho since 1952.

WILSON, A. K. 1958. Pulpwood production in Idaho and Montana, 1956. U.S. Forest Serv., Intermountain Forest and Range Expt. Sta. Res. Note 55, 3 pp.

Engelmann spruce was an important source of pulpwood production in Idaho but not in Montana.

WILSON, ALVIN K. (See Miller and Wilson. 1959)

WINTERS, WAYNE STREET. 1954. Reinventory of soil and plant characteristics of Miller Watershed. Master's thesis. Univ. Utah, Salt Lake City.

Includes quantitative phytosociological data.

WOOD, STEPHEN L. 1949. The Scolytidae of the Logan Canyon area in Utah and their host plants. Utah Acad. Sci., Arts and Letters Proc. 26: 127-128.

Lists 14 species that occur on Engelmann spruce.

WOOD, STEPHEN L. 1951. Two new species and new genus of Scolytidae (Coleoptera) from Utah. Jour. Kansas Ent. Soc. 24(1): 31-32.

Reports on Carphoborus engelmanni and Polygraphus convexifrons on Engelmann spruce.

WOODWARD, K. W. 1917. Tree growth and climate in the United States. Jour. Forestry 15: 521-531.

WRIGHT, JONATHAN W. 1955. Species crossability in spruce in relation to distribution and taxonomy. Forest Sci. 1: 319-349.

WYGANT, N. D. 1958. Engelmann spruce beetle control in Colorado. Tenth Internatl. Cong. Ent. Proc. 1956: 181-184.

WYGANT, N. D. 1959. Bark beetle control. Jour. Forestry 57: 274-277.

WYGANT, N. D., and ARTHUR L. NELSON. 1949. Four billion feet of beetle-killed spruce. IN: U.S. Dept. Agr., Trees, Yearbook of Agriculture, 1949: 417-422.

FOREST SERVICE CREED

The Forest Service of the U. S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the National Forests and National Grasslands, it serves — as directed by Congress — to provide increasingly greater service to a growing nation.

Headquarters for the Intermountain Forest and Range Experiment Station are in Ogden, Utah. Project headquarters are also at:

Boise, Idaho
Bozeman, Montana (in cooperation with Montana State University)
Logan, Utah (in cooperation with Utah State University)
Missoula, Montana (in cooperation with University of Montana)
Moscow, Idaho (in cooperation with the University of Idaho)
Provo, Utah (in cooperation with Brigham Young University)
